

Better buying. Smarter stores. Stronger business.

AI procurement. Digital shelf.
Integrated retail software.

Three strengths. One retail partner.

Procurement expertise, equipment economics and software breadth — brought together.

01

AI procurement

China sourcing + cost intelligence

02

Retail equipment

Competitive economics + reliable delivery

03

AI software ecosystem

Capabilities across the retail value chain

From purchase data to better buying.

- 01 Understand costs**
Spend analysis, audit and cost breakdown.
- 02 Find better supply**
China sourcing and real supplier RFQs.
- 03 Validate the decision**
Supplier quotes, samples and landed costs.

Smart equipment. Strong commercial value.

A cost-efficient route to digital shelf deployment.

- Competitive equipment economics

- Store-ready appearance and testing

- Integration, warranty and support

One update. Consistent execution.

Connect pricing, shelf information and store workflows.

Retail systems

Sync & approval

Shelf display

Review & act

Price consistency

Promotion updates

**Less manual
administration**

Compatibility and update performance are validated in the pilot.

AI across the retail value chain.

A broad partner ecosystem, coordinated around your business needs.

PROCUREMENT

Audit · Cost · RFQ

SUPPLY CHAIN

Forecast · Stock · Replenish

SMART STORE

Vision · Shelf · Queue

CUSTOMER

Service · CRM · Engagement

OPERATIONS

Facilities · Alerts · Tasks

INTEGRATION

APIs · Data · Copilot

Specialist software. Coordinated delivery.

Select the right modules, then connect them into a practical solution.

FineDecision

Demand and inventory
decisions

QuickCEP

AI service and customer
engagement

Store intelligence

Vision and facilities use cases

iCreate coordinates sourcing, equipment, integration and the pilot.

Better signals. Faster store actions.

Replenish the right stock

Support customer questions

Act on store exceptions

Review what improved

China sourcing depth. International execution resources.

20+

years of China trade
and sourcing experience

Sourcing knowledge

Electronics, accessories and supply validation.

Equipment economics

Supply resources, specifications and support.

Software integration

A coordinated route from use case to pilot.

Start with one business challenge.

A focused pilot creates a clear basis for the next investment.

PROCUREMENT

One category or selected SKUs

DIGITAL SHELF

One store or a selected area

AI OPERATIONS

One measurable use case

Agree the priority. Define success. Build the right proposal.
